

Huddersfield Social Media Surgery

Free advice for your organisation

In Cafe Ollo at The Media Centre

Northumberland Street, Huddersfield HD1 1RL

Are you interested in using blogs, text messages, Facebook, Twitter and other free web sites (sometimes called “social media”) to help a group or organisation that you belong to? Want to find out how you can use free web sites and services to organise activities, promote events, collect feedback and keep a record of everything you do?

Come along to one of our free drop-in advice sessions for community and voluntary groups, clubs, societies and small arts organisations:

Monday 20th September, 4.30pm to 7pm

Monday 22nd November, 4.30pm to 7pm

Monday 24th January, 4.30pm to 7pm

At the surgery you’ll get chance to sit down and have a cup of tea with someone who understands about web sites and tell them about your group or organisation and what you do. Then you’ll be able to look at the kinds of web sites and services that you might find helpful, and see what similar groups are doing.

Thinking of getting your group online? Already got a web site that is difficult or expensive to update? Looking for an easier way to share information, photos and videos online? Drop in any time for free advice.
